OBJECTIVE

Cybersecurity Analyst and Web Developer with 2+ years of IT experience. Specialized in combining secure coding practices with modern web development. Proficient in vulnerability assessment, penetration testing, and building secure, user-centric web applications. Strong foundation in Python automation, network security, and frontend technologies. Seeking to leverage dual expertise in security and development to build robust, secure digital solutions.

EXPERIENCE

IT Support Engineer (Project-Based, Off-Role) Jan 2023 – Jan 2026
Secure Life HR Service Private Ltd. *New Delhi*

- Provided technical support for desktops, laptops, printers, and network connectivity issues.
- Installed, configured, and maintained Windows 10/11 systems and Microsoft Office applications.
- Assisted with deployment of new hardware and software across multiple client locations.
- Maintained IT asset inventory and documented procedures for internal use.
- Trained end-users on software and tools, improving digital adoption and reducing support tickets.

PROJECTS

- **Password Generator (Security Tool):** Developed an advanced password generator featuring entropy calculation, XKCD-style passwords, and sanitization modes. *Tech: Web Dev, Crypto Algorithms.* Live Demo | Code
- **Command Injection Execution (InLighn Tech):** Practiced exploiting **command injection vulnerabilities** on DVWA and bWAPP to execute system commands, perform blind injections, bypass input filters, and establish reverse shells. Tools: *DVWA, bWAPP, Kali Linux, Burp Suite, Netcat, TryHackMe.* Reported exploitation steps and proposed **mitigation techniques** such as input validation and parameter sanitization.

TOOLS & SKILLS

- **Networking & System Support:** VLANs, LAN/WAN, DHCP, DNS, VPN, Firewall setup
- **Operating Systems:** Windows (installation, hardening, troubleshooting), basic Linux (Ubuntu, Kali)
- **Security Tools:** Nmap, Wireshark, Nessus, Burp Suite, Metasploit

EDUCATION

Master of Computer Applications, Manipal University, Jaipur May 2021 - July 2023
CGPA: 8.92

Bachelor of Science, Swami Vivekananda Subharti University, Meerut July 2016 - Dec 2019
Percentage: 68.5%

CERTIFICATIONS

- Tata Strive - Cybersecurity Trainee Program View
  Tata Strive | SAP India May 2024 – Sept 2024

LEADERSHIP

City President Jan 2023 - Dec 2023
BloodConnect Foundation *Kanpur, UP*

- Spearheaded a 2-tier team of 20+ students, efficiently managed a budget of INR 2.5 LPA, and improved helpline processes for enhanced customer satisfaction.
- Organized 20+ blood donation camps, collecting 1K+ units of blood, impacting 3K+ lives, and inspiring campus community participation.
- Demonstrated leadership, budget management, process improvement, and community engagement.
